SUN SAIL International Freight Forwarding Co., Ltd.

## General Introduction

SUNSAIL is a professional freight forwarder covers Customs Declaration Broker, International Freight Forwarding, Heavy lift transportation, commercial move, Bonded Storage, 3<sup>rd</sup> party logistics. Since the beginning of its foundation, Sunsail is striving to offer seamless service to its valued customers. Extensive overseas agents network and comprehensive services enable us to provide one-stop service include international transportation, storage and distribution, packing, bonded warehousing, container stuffing/unstuffing, haulage etc.

SUNSAIL is also one of the fastest growing logistic solution providers in Asia Pacific region. Its well established networks cover more than 100 cities in 50 countries. This strong presence in all key markets allows to offer comprehensive services that you can count on.

Established in 2005, Sunsail International Freight Forwarding Co.,Ltd.(Sunsail) is privately owned, full services, international freight forwarder and logistic provider serving the international community. The company head-office locates in Shanghai, the biggest port city in China. Sunsail specializes in a unique brand of high quality personalized customer services that affords our clients the ability to work with our professional staff with expertise.

As an NOVCC, all our staffs have 8+ years experience in traffic and documentation to handle any type of shipments to any destination with the assurance that the shipment will arrive timely with the proper documentation provided. We have extensive experience with letters of credit, drafts, consular documentation, project management and any special requirements dictated by the nature of the product, country of origins and destination.

## Our Culture

Staff are our biggest asset and backbone. While technology and process drive our business, we are ultimately still a people-oriented business. We grow up together with our staff.

## Our Service

As an international freight forwarder, Sunsail can offer competitive rates for both import and export to and from most destinations worldwide. We can also offer innovative ways in which to move shipments always with the good saving for our customers.

No job is too small, SUNSAIL offers personalized service to fulfill your logistics requirement. If you require a quotation for any of your freight movement, no matter it is large or small, then please contact us with brief details and we will be happy to provide you with a competitive quotation.

## Supply Chain Management

With the experience of SunSail International Freight Forwarding Co.,Ltd. in such advanced state-of-the-art logistics provision in order monitoring and total physical distribution programs, overseas buying organizations enjoy the total solution to the problems of supply chain management. Our services include: -

- ▲▲ Order monitoring
- ▲▲ Collection and dispatch of samples
- ▲▲ Liaison with quality inspection agent
- ▲▲ Collection and dispatch of sub-materials for the production of order.
- ▲▲ Liaison with carriers for shipment of goods
- ▲▲ Collection and dispatch of shipping and export documents.
- ▲▲ Customs clearance at destinations
- ▲▲ Deliveries to distribution centers or retail outlets at destinations.
- ▲▲ Cargo consolidation, including tailor-made programs to facilitate the physical distribution process at destinations.

## Customs Formalities

### Import and export agent

It is the regulation that only licensed import-and-export company is entitled to undertake import and export business in China. In other words, if a company is not a licensed I/E company, the shipment can't be cleared, no matter it is import or export. SunSail can liaise with licensed I/E company to be agent of our customers. The I/E company can prepare for the documents for the purpose of customs formalities. In view of long term cooperation, they offer a very reasonable price.

## Customs consulting

Sunsail provides its experienced-backed commitment to offer you professional, personalized, just-in-time service – each and every time you do business across the border.

## Warehouse & Distribution

Sunsail offers 3PL service include warehousing, container haulage, container stuffing/destuffing, sorting, labeling, packing and distribution.

- ▲▲ Warehouse for air inbound shipments
- ▲▲ Warehouse for seafreight export shipments

## Project Management

Our experience team can ship your project cargo with any size and weight to any corner of the world. We not only ship the cargo, but come up with solution. Our experience and expertise include the handling of oversize, heavy, extremely urgent, and door delivery to the job site of unusual destinations encountered with project shipments.

Our project cargo services includes:

- ▲▲ Break-bulk shipment (even with oversize/overweight)

We are the direct booking agent of major breakbulk carriers. With our dedicated and experienced staff, we can ship any kind of breakbulk shipment, no matter it is oversized or overweight, to any corner of the world.

We also handle the transportation of oversize/overweight shipment from/to Shanghai terminal to/from client's job sites throughout China.

The goods we are shipping include mining machinery, steel pipes, steel structure etc.

#### ▲ ▲ Charter and part charter

We can organize the charter service for your shipment according to your request, by air or by sea. In addition to seeking a charter for the client, we offer other value-added service to our customers such as documentation, packing, coordination, inland transportation, port operation etc.

Pls contact us for details if you are interested in our chartering service.

#### ▲ ▲ Special container (Flat rack and open top)

When your shipment is oversized and general container can't hold it, you will have to load the shipment in special container such as flat rack and open top.

Our operation team is very experienced to handle this kind of special container from looking for a reliable carrier to container loading, lashing, securing and haulage.

## Commercial Move

Sunsail has developed a Project Moving team that specializes in the movement of heavy or delicate equipment used by the electronics and integrated circuit manufacturing industries. Our experienced personnel can handle the most complex and challenging moves using customized tools such as hydraulic heavy lift dollies, moveable mylar floor protection, shrink wrapping, etc. We work closely with a client's engineering staff to ensure a smooth move that meets critical deadlines and protects the factor environment.

▲ ▲ Delicate Equipment move;

▲ ▲ Dangerous Goods Handling

## DG goods handling

We can also handle Dangerous goods to/from China. Our experienced and skilled staff can help you to ship your goods to any corner of world in the safest and timely way. The classification of DG we can handle include class 1, 2, 3,4,5,6,8,9.

## The Protection Of Our Customers

### ✓ Forwarding Service Liability

A slight mistake can lead to thousands of dollars in claims and the cost for legal assistance can reach as much as the claim itself.

Freight Services Liability insurance (FSL) is a new and unique tailor-made product designed to protect forwarders' businesses as well as their agents and clients. FSL is purchased by SUNSAIL and incorporates Errors & Omissions and Legal Liability cover. It can protect our valued customers from being hurt due to forwarders' mistake or negligence.

Errors and Omissions (E&O) cover is included in Freight Services Liability insurance. E&O is designed to protect the operations of SUNSAIL.

### ✓ Legal Liability

Legal Liability cover is included in Freight Service Liability insurance (FSL). Legal Liability is designed to protect SunSail as well as our customers/clients and agents with regards to the freight service contracts.

Legal Liability cover is included in the FSL Program. The Legal Liability insurance is also a "first dollar legal defense". Legal liability takes care of just about all the things that can go wrong – sometimes out of our hands.

## Service Network

Sunsail are international freight forwarders with a worldwide network of air and sea freight forwarding services.
